

# Camping Gaz Camping Chef

Product Code: 10002177

RRP Price: £69.99

**Our Price: £32.99** (Saving £37)

Camping Gaz Camping Chef - A classic stove and grill combination, it offers cooking versatility to campers and is a perfect choice for a hearty breakfast for all the family, you can have tea, toast and cooked food on the go simultaneously. The two high power burners on the stove are fully adjustable and allow for precise flame adjustment to give you more control over your cooking. The burners are protected from the wind by the outer casing of the stove, so that even in adverse weather conditions you can cook a large meal for your family. The grill underneath is perfect for toast but also gives you the flexibility to cook healthier grilled foods, it is a radiant burner and so cooks across the entire surface of the grill. The push and turn knobs are child safe for peace of mind when camping with kids. When you are finished at the campsite, this clever design packs down to briefcase size for easier transportation and storage. The stove operates off Campinggaz cylinders making it a perfect choice for extended stay campers.

## Features

- 2 burners plus a ceramic, radiant grill perfect for grilling and toasting.
- The ceramic burner is not affected by wind.
- Grill top above the ceramic grill area can be used as a warmer when in use.
- A grill pan is supplied, it has a removable wire cooking grid and a flip over handle that keeps the grid secure during transport. The grill base features dents that allow you to perfectly locate the grill pan for optimum cooking under the ceramic burner. The grill pan also features shaped dents that allow it to be stored neatly on the stove top when the stove is packed down (see below).
- The sides of the Camping Chef extend up and down to provide wind protection to the 2 top burners and the ceramic grill, these are integrated windshields, as they are not over-sized, they do not inhibit the use of large pans.
- High quality, removable, stainless steel burners and stove top are easy to clean.
- The pan support area is easy to clean and as the area is removable it allows you to easily access the entire stove top with ease for easy cleaning.
- Child safe push and turn control knobs for family safety, the control knobs have precise flame adjustment.
- Stove side bars fold up with the grill base tray forming a protective base, with the lid closed and grill pan positioned on the stove top, it then all packs down to a briefcase size for easy transportation and storage.
- Gas inlet is near the back of the stove so it will not get in the way while cooking.
- Long runtime - Stove runs for over 8 hours on a full Campinggaz® R907 cylinder
- The Camping Chef can operate off other butane/propane cylinders with the use of the correct regulator
