**Our Price: £194.99** (Saving £125)

Vango Spirit 300+ - Take your adventures into the wilds with the spacious Spirit. The tunnel design provides ample room for 3 people with extensive storage space for gear in the large porch area. Light and strong Powerflex® alloy poles Waterproof and durable Protex® flysheet Breathable ripstop inner with water repellent finish TBS® Pro system enhances tent stability Large storage area for gear Pitches as one for speed and convenience Weight 3000g.

## Features

- New longer inner for added comfort and usability for taller outdoor enthusiasts
- Tunnel design optimum balance of weight and stability
- Flysheet first or pitch as one keeps your inner dry when pitching
- TBS® Pro – Tension Band System unique internal bracing system, ensures tent performs in adverse weather conditions, especially high winds
- Flat external pole sleeves same structural integrity and stability as inner first pitch, but is easier and quicker to pitch than inner first tents
- Pre-angled poles adds stiffness to pole structure
- Powerlite 7001-T6 alloy poles precision and strength combined with flexibility and corrosion resistance
- Pole sleeve tension adjustment compresses pole structure and tensions flysheet for maximum performance
- Protex® 40D SPU-RP 3000 durable, silicone elastomer coated ripstop nylon
- Seam taped flysheet and groundsheet applied to seams, creating a water tight seal
- Extended porch area excellent storage for bike touring or just those with a lot of kit
- Rain stop flysheet door rain will not drop into inner when flysheet door is left open
- Flysheet door that can be partially opened as vent extra ventilation
- Flysheet door zip cover with rain gutter stops rain running of flysheet into open or vented door
- Anchor straps adjusts flysheet tension
- Attachment clips for suspending the inner tent easy assembly and disassembly
- O shaped inner door maximum step over clearance and constant curve longevity
- Half mesh inner door with cover inner ventilation/keeps midgies at bay
- Inner tent pockets somewhere handy for your bits and pieces
- Connection between inner tent, flysheet and pegging point adds stability and more room to inner
- HD nylon 5000 groundsheet extremely strong, tough and durable
- Footprint groundsheet available allows flysheet to be used without inner as a lightweight shelter
- Stuffsac with compression straps to reduce overall pack size
- Repair Kit included for that unforeseen tent emergency
