

# Coleman Coastline 8 Deluxe

Product Code: RCX2787

RRP Price: £349.99

**Our Price: £199.99** (Saving £150)

Coleman Coastline 8 Deluxe - This stable tunnel structure offers generous dimensions for 8 people with 4 separate bedrooms for increased privacy for each member of the group. The extra-large central living area provides plenty of space to house a large dining table and chairs.

Effortless to pitch thanks to its stable and strong tunnel structure, the design focuses on the group's convenience with handy features such as the peak protection to shelter tent doors, the new Coleman® self-rolling window covers, a cool air port for optional air conditioning, a quick access power cord vent and a sewn-in groundsheet to keep the elements out

## Features

- Tunnel tent structure offering a good internal space and easy pitching.
- Each individual bedroom sleeps 2 people, providing both privacy and flexibility; you can remove bedrooms according to your sleeping, living and storage needs. Perfect if the weather turns poor and you need to create more living space in an instant.
- Polyester 185T
- The Coastline Deluxe has a fully integrated sewn in PE groundsheet, providing dry and bug-free camping.
- The living area groundsheet is a thick PE to resist heavy use.
- The bedrooms also feature strong and resistant PE.
- Breathable polyester and no-see-um mesh inner is lightweight and bug-resistant.
- It features fibreglass poles.
- The Coastline Deluxe features rain protection peaks; pole-tensioned fabric providing a porch area over the doors to prevent rain from entering the tent on entry and exit.
- A set of porch poles is supplied allowing one door to be created into a porch area.
- Includes the Cool air port for increased ventilation.
- The new Coleman exclusive self-rolling windows means you don't need to roll the windows manually, a spring coils up to do the job.
- Features 2 doors, one side door and a large door that can be opened into a large porched area.
- Optimally place guy-lines along the poles and around the tent ensure stability in high winds.
- Up in one pitching allows for quick and easy pitching; the inner bedrooms are pre-attached and they can be left in when packing the tent away.
- Colour coded poles and pole sleeves and bedroom inner hooks minimise pitching errors.
- Internal pockets
- PVC windows with covers increase visibility and allow light into the tent but provide privacy when required.
- The power cord vent is a convenient opening so that you can run an electricity cable into the tent
- Carrybag
