The definitive 2 person mountain tent is much copied, but never bettered. The exceptionally strong geodesic design has withstood some of the harshest conditions for over two decades.

Simple and quick to pitch with colour coded poles and continuous pole sleeves. Superb inner tension prevents sagging and creating the largest usable space possible. Two entrances and porches allow sheltered access and plenty of space to store your gear.

A combination of Watershed Endurance and Waterbloc fabrics provide excellent durability and UV resistance with superb waterproofing.
